### INDEPENDENT AUDITOR'S REPORT

Honorable Judge and Commissioners  
Franklin County, Texas  
200 North Kaufman Street  
Mount Vernon, Texas 75457

#### Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Franklin County, Texas ("County") as of and for the year ended December 31, 2020, and the related notes to the financial statements which collectively comprise the County's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on an auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes assessing the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

#### Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Franklin County, Texas as of December 31, 2020, and the respective changes in financial position, where

applicable, and cash flows, thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of changes in net Pension Liability, Schedule of Contributions and Schedule of Changes in Net Pension Liability and Schedule of Changes in Total OPEB Liability and Related Ratios-TCDRS, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

#### *Other Information*

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Franklin County, Texas' basic financial statements. The introductory section and combining individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I do not express an opinion or provide any assurance on them.

Respectfully Submitted,

**Mike Ward Accounting & Financial Consulting, PLLC**

## MANAGEMENT DISCUSSION AND ANALYSIS

DECEMBER 31, 2020

As management of the Franklin County, Texas ("County"), we offer the readers of the Franklin County, Texas' financial statements this narrative overview and analysis of the financial activities of the County for the year ended December 31, 2020. We encourage readers to read the information presented here in conjunction with additional information that has been furnished in the County's financial statements, which follow this narrative.

### Financial Highlights

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$22,445,529 (net position). Of this amount, \$16,437,615, or 73%, is net investment in capital assets. Net position restricted for specific purposes is \$1,274,734, or 6%. The remaining unrestricted position of \$4,733,180, or 21% may be used to meet the County's ongoing obligations to its citizens and creditors in accordance with the County's fiscal policies.
- The County's total net position increased by \$1,555,344, or 7%, due to an increase in governmental activities net position.
- As of the close of the current year, the County's governmental funds reported combined ending fund balances of \$6,105,975, an increase of \$679,734, or 13%, in comparison with the prior year. Approximately 58% of this total amount, or \$3,560,401, is available for spending at the County's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General fund of \$3,559,605 was 59% of total general fund expenditures for the fiscal year.
- The County's total long-term obligations decreased by (\$143,266), or 9%, during the current year based on a significant decrease in the net pension liability during the year.

### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Franklin County, Texas' basic financial statements. The County's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The basic financial statements present two different views of the County through the use of government-wide financial statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of Franklin County, Texas.

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The net position of the County exceeded liabilities by \$22,445,529 as of December 31, 2020. The County's net position increased by \$1,555,344, for the year ended December 31, 2020.

*Net investment in capital assets:*

The largest portion of the County's net position, \$16,437,615, or 73%, reflects the County's investment in capital assets (e.g. land, buildings, machinery and equipment) less any debt still outstanding that was issued to acquire those items. The County uses these capital assets to provide services to citizens, consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities.

*Restricted net position:*

The restricted portion of the County's net position, \$1,274,734, or 6%, reflects the portion of net assets that contains external constraints placed on the use of resources, or imposed by enabling legislation.

*Unrestricted net position:*

Unrestricted net position in the amount of \$4,733,180, or 21%, is available to fund the County programs to citizens and obligations to creditors.

**FRANKLIN COUNTY, TEXAS  
MANAGEMENT DISCUSSION AND ANALYSIS (continued)  
DECEMBER 31, 2020**

**Financial Analysis of the County's Funds**

As noted earlier, Franklin County, Texas uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds** - The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. Specifically, the unassigned fund balance may serve as a measure of net resources available for spending at year end.

As of the close of the current fiscal year, the governmental funds reported combined ending fund balances of \$6,105,975, an increase of \$679,734, or 13%, in comparison with the prior year. Of this amount, \$3,560,401, or 58%, constitutes unassigned fund balance, which is available for spending at the County's discretion. The County has assigned fund balances of \$1,270,840, or 21% and a total restricted fund balance of \$1,003,108, or 16%. The County also has \$271,626 of nonexpendable fund balance.

The general fund is the chief operating fund of Franklin County, Texas. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$3,559,605. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total expenditures. Unassigned fund represents 59% of total general fund expenditures.

**General Fund Budgetary Highlights:** During the fiscal year, the County made several adjustments to the budget. Generally budget amendments fall into one of three categories: (1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; (2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and (3) increases in appropriations that become necessary to maintain services.

**Proprietary Funds** - The County's proprietary funds provide the same type of information found in the government-wide statements, but in more detail. Unrestricted net position of the proprietary funds at the end of the year amounted to \$4,034.

**FRANKLIN COUNTY, TEXAS  
MANAGEMENT DISCUSSION AND ANALYSIS (continued)  
DECEMBER 31, 2020**

**Capital Asset and Debt Administration**

**Capital Assets** - Franklin County, Texas' investment in capital assets for its governmental and business-type activities, as of December 31, 2020, totals \$17,526,606 (net of accumulated depreciation). These assets include land, buildings, improvements, infrastructure, machinery and equipment. This amount represents a net increase of \$1,804,980, or 11%, (net of accumulated depreciation) over the prior year.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET  
TO THE STATEMENT OF NET POSITION  
DECEMBER 31, 2020**

<b>Total fund balances - governmental funds balance sheet</b>	<b>\$ 6,105,975</b>
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds balance sheet.	16,697,306
Some expenses, including compensated absences, reported in the statement of activities do not require the use of current financial resources; therefore, they are not reported as expenditures in the governmental funds balance sheet.	(58,405)
Long-term liabilities, including bonds payable, notes payable, capital leases payable, and net pension liability (net of deferred outflows/inflows) are not due and payable in the current period, therefore, they are not reported in the in the governmental funds balance sheet.	(1,494,046)
Some of the County's revenues, including fines and property taxes, will be collected after year-end, but are not available soon enough to pay current year's expenditures; therefore, they are deferred in the governmental funds balance sheet.	378,356

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2020**

<b>Net change in fund balances - statement of revenues, expenditures and changes in fund balances - governmental funds</b>	<b>\$ 679,734</b>
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays in the current period exceeding depreciation expense.	1,804,980
The issuance of long-term debt, including bonds payable, notes payable, capital leases payable, provides current financial resources to governmental funds, while repayment of the principal of long-term debt consumes the current financial resources of governmental funds. This amount reflects the amount by which principal payments were made through governmental funds during the year.	(954,479)
Governmental funds report all payments to pension benefits as expenditures. However, in the government-wide statement of activities, the pension expense is actuarially determined. This amount is the total of the net change in pension liability during the year.	(537)
Revenues in the statement of activities, including fines and property taxes, that do not provide current financial resources, are not reported as revenues in the governmental funds.	38,579

## NOTES TO THE FINANCIAL STATEMENTS

**FRANKLIN COUNTY, TEXAS  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 30, 2020**

**A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Franklin County, Texas ("County") reports in accordance with accounting principles generally accepted in the United States of America ("GAAP") as established by the Governmental Accounting Standards Board ("GASB") and the Financial Accounting Standards Board ("FASB"), when applicable. The accounting and reporting framework, significant accounting principles and practices are discussed in subsequent sections of these notes. The remainder of the notes are organized to provide concise explanations, including required disclosures of budgetary matters, assets, liabilities, fund equity, revenues, expenditures/expenses, and other information considered important to gaining a clear picture of the County's financial activities for the year ended December 31, 2020.

**Reporting Entity**

The County is a public corporation and a political subdivision of the State of Texas. A Commissioners' Court, composed of four (4) elected County Commissioners and one (1) elected County Judge, governs the County. The County provides a vast number of services, including public safety, administration of justice, health and human services, culture and recreation, public improvements, and general administration.

Under GASB Statement No. 14, component units are organizations for which the County is financially accountable and all other organizations for which the nature and significance of their relationship with the County are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Financial accountability exists if the County appoints a voting majority of an organization's governing board and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the County. The County may be financially accountable for governmental organizations with a separately elected governing board, a governing board appointed by another government, or a jointly appointed board that is fiscally dependent on the County. The financial statements of component units may be discretely presented in a separate column from the primary government, or blended with the financial statements of the primary government. GASB Statement No. 39 added clarification to GASB 34 by including entities which meet all three of the following requirements:

1. The economic resources received or held by the separate organization are entirely for the direct benefit of the primary government, its component units, or its constituents;
2. The primary government, or its component units, is entitled to, or has the ability to otherwise access a majority of the economic resources received or held by the separate organization;
3. The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to other access, are significant to the primary government.

In addition, GASB Statement No. 61 considers an organization that does not meet the financial accountability criteria may be included as a component unit if management's professional judgement determines it to be necessary or misleading if omitted. This evaluation includes consideration of whether a financial benefit or burden exists in the relationship between the entities. Management has identified one organization that fit this criteria, Franklin County Economic Development Board.

**Basis of Presentation, Basis of Accounting**

The basic financial statements are prepared in conformity with GASB Statement No. 34 which requires that the government-wide financial statements to be prepared using the accrual basis of accounting, and the economic resources measurement focus. Government-wide financial statements do not provide information by fund, but distinguish between the County's governmental activities and business-type activities on the Statement of Net Position and Statement of Activities. Significantly, the County's Statement of Net Position includes both noncurrent assets and noncurrent liabilities. In addition, the government-wide Statement of Activities reflects depreciation expense on the County's capital assets, including infrastructure.

In addition to the government-wide financial statements, the County has prepared fund financial statements, which use the modified accrual basis of accounting, and the current financial resources measurement focus for the governmental funds. The accrual basis of accounting is utilized by proprietary funds. Under this method, revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred.

Management's Discussion and Analysis includes an analytical overview of the County's financial activities. In addition, a comparison schedule is presented that compares the original adopted and final amended General Fund budget with actual results.

The basic financial statements include both government-wide, (based on the County as a whole), and fund financial statements. The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on fees and charges for support.

**FRANKLIN COUNTY, TEXAS  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 30, 2020**

**A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (General Government, Public Works, etc.) or programs are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or program. Program revenues include: a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or program, b) grants and contributions that are restricted to meeting the operational requirements of a particular function or program, or c) grants and contributions that are restricted to meeting the capital requirements of a particular function or program. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are also reported as general revenues rather than as program services.

The net cost (by function) is normally covered by general revenue (property and sales taxes and interest income).

Separate fund financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds, and major individual proprietary funds are reported as separate columns within the funds financial statements. The major governmental funds are the General Fund, Road and Bridge Funds (1-4), and County-Wide Road and Bridge Fund. GASB Statement No. 34 sets forth the minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses or either fund category for the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements. A combining statement is presented after the notes with detail information for each fund.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principle operating revenues of the Airport Fund is lease revenue. Operating expenses for proprietary funds includes the costs of sales and service, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting the definition are reported as nonoperating revenues and expenses.

The government-wide focus is more on the sustainability of the County as an entity, and the change in aggregate financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on major individual funds of the governmental and proprietary categories. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

**Measurement Focus and Basis of Accounting**

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts, and reported within the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund financial statements. The economic resources measurement focus means all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position, and the operating statements present increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred.

Governmental fund level financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter, to pay liabilities of the current period. For this purpose, the government considers revenues to be available when they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the obligation has matured and is due.

Ad valorem, sales tax revenues, and other taxes recorded in the General Fund, Road and Bridge Funds, and County-wide Road and Bridge Fund are recognized under the susceptible to accrual concept. Licenses and permits, charges for services, fines and forfeitures, contributions, and miscellaneous revenues are recorded as revenues when received in cash, as the resulting receivable is not measurable. Investment earnings are recorded as earned since they are measurable and available. Investment earnings are recorded as earned since they are measurable and available. Intergovernmental grant revenues are recognized when all eligibility requirements have been met.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as needed.

**A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Governmental funds are those through which most governmental functions of the County are financed. The acquisition, use and balances of the County's expendable financial resources, and the related liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following is a description of the County's major governmental funds:

The **General Fund** is the general operating fund of the County. It is used to account for all financial resources, except those required to be accounted for in another fund. All general tax revenues, and other receipts that are not restricted by law or contractual agreement to some other fund, are accounted for in this fund. General operating expenditures, fixed charges, and capital improvements costs, that are not paid through other funds, are paid from this fund.

The **Road & Bridge Funds** are used to account for the revenues restricted for the funding of road repairs and improvements and all expenditures related to the County roads. These funds are broken into two categories; the Road and Bridge Funds 1 - 4 which account for the individual road and bridge accounts of each commissioner and the County-wide Road and Bridge Fund which encompasses the activity for the entire County.

Proprietary funds are accounted for on a flow of economic resources measurement focus. Within the economic measurement focus all assets and all liabilities associated with the operation of these funds are included on the Statement of Net Position. Proprietary fund-type operating statements present increases, (e.g., revenues), and decreases, (e.g., expenses), in net position. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and providing and delivering goods in connection with a proprietary fund's principle ongoing operations. The following is a description of the proprietary fund:

The **Airport Fund** accounts for the operation of the Airport. Activities of the fund include the administration, operation and maintenance of the airport infrastructure. This fund also accounts for airport projects while under construction.

Additionally, the County reports the following fund type:

The **Fiduciary Fund** financial statements include fiduciary funds, which are classified as agency funds used to account for assets held by an agent for individuals, other governments, and other funds. Agency funds do not involve a formal trust agreement. Agency Funds (assets equal liabilities) do not involve measurement of results of operations.

**Financial Statement Amounts**

**Cash, Cash Equivalents, and Investments**

Cash of several funds are pooled into a common interest-bearing bank account in order to maximize investment opportunities. Each fund with money deposited in the pooled cash has equity therein, and interest on these funds are allocated based upon relative equity at month-end.

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, certificates of deposit, and short-term investments with original maturities of three months or less from the date of acquisition.

In accordance with GASB Statement No. 72, Fair Value Measurement and Application, investments are recorded at fair value. In accordance with GASB No. 72, the County categorizes its fair value measurements within the fair value hierarchy. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. A detail of the fair value hierarchy of investments held by the County are disclosed in Note C of the financial statements.

**Receivable and Payables**

Property taxes are levied prior to September 30 based on taxable values as of January 1 and become due October 1 and past due after January 31. Accordingly, receivables and revenues for property taxes are reflected in the government-wide financial statements based on the full accrual method of accounting. Property tax receivables for the current year's levy are shown net of an allowance for uncollectable accounts.

Accounts receivable from other governments include amounts due from grantors for approved grants for specific programs and reimbursements for services performed by the County. Program grants are recorded as receivables and revenue at the time eligibility requirements have been met and reimbursable costs incurred.

Reimbursements for services performed are recorded as receivables and revenues when they become eligible for accrual in the government-wide statements. Included are fines and costs assessed by court action and billable services for certain contracts.

Revenues received in advance of the costs being incurred are recorded as deferred revenue in the fund financial statements.

**FRANKLIN COUNTY, TEXAS  
 NOTES TO THE BASIC FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED DECEMBER 30, 2020**

**A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Lending or borrowing between funds is reflected as a "due to" or "due from". Interfund activity reflected in "due to" or "due from" is eliminated on the government-wide financial statements.

**Interfund Activity**

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfer" line on the government-wide Statement of Activities.

**Inventories and Prepaid Items**

Inventory is valued at the lower of cost or market price. Reported inventories are offset by a restriction of fund balance, which indicates that they do not constitute "available resources" even though they are a component of current fund balance.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

**Restricted Assets**

Assets are reported as restricted when limitations on their use change the nature of normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law, through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources, as they are needed.

**Capital Assets**

Capital assets, which includes land, buildings, equipment, and improvements, purchased or acquired, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and proprietary fund financial statements. The County defines capital assets as assets with an initial individual cost of more than \$5,000, and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost, if historical cost is not available. Contributed assets are recorded at fair market value as of the date donated. Additions, improvements, and other capital outlays, that significantly extend the useful life of an asset, are capitalized. Other costs incurred for repairs and maintenance are expensed.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Net interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. There was no capitalized interest for this fiscal year.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Years</u>
Buildings and improvements	5-50 years
Machinery & equipment	5-10 years
Infrastructure	40-50 years

**Deferred outflows/inflows of resources**

In addition to assets, the Statement of Financial Position reports a separate section for deferred outflows of resources. The separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditures) until then. The County has one type of deferred outflow, deferred outflows related to pensions, which arise only under the accrual basis of accounting. It is reported only in the government-wide Statement of Net Position. This amount is deferred and amortized over the actuarial determined recognition period.

In addition to liabilities, the Statement of Financial Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has three types of deferred inflows. Unavailable revenue, which only arises on a modified accrual basis of accounting, is comprised of property taxes and revenue from fines and is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Advance property tax levy, in the government-wide Statement of Net Position and the governmental funds balance sheet, represents property taxes levied before the period for which they are available for spending. Advances from grants represents funds on hand in which the eligibility requirements have been met; however, the funds have not yet been expended. Finally, deferred inflows related to pensions, which arise only under the accrual basis of accounting. It is reported only in the government-wide Statement of Net Position. This amount is deferred and amortized over the actuarial determined recognition period.

**FRANKLIN COUNTY, TEXAS  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 30, 2020**

**A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Long-term Obligations**

In the government-wide financial statements, and proprietary fund types within the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities' Statement of Net Position. The long-term debts consists primarily of notes payable, pension liability, and compensated absences.

Long-term debt for governmental funds is not reported as a liability in the financial statements until due. The debt proceeds are reported as other financing sources, net of applicable premiums or discounts, and payments of principal and interest are reported as expenditures. Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate funds.

Assets acquired under the terms of capital leases are recorded as liabilities and capitalized in the government-wide financial statements at the present value of the net minimum lease payments at inception of the lease. In the governmental fund financial statements, capital lease transactions are recorded as other financing sources and as capital outlay expenditures in the year of acquisition. Lease payments representing both principal and interest recorded as expenditures in the fund financial statements with an approximate reduction of principal recorded in the government-wide financial statements.

**Compensated absences**

A liability for unused paid time off accruals and compensatory time for full-time employees is calculated and reported in the government-wide financial statements. For financial reporting, the following criteria must be met to be considered as compensated absences; a) leave or compensation is attributable to services already rendered, and b) leave or compensation is not contingent on a specific event (such as illness). These accrued liabilities are typically paid by the General Fund for the governmental fund-type.

**Net Position**

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of net capital assets reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislations adopted by the County or through external restrictions imposed by creditors, grantors, or laws and regulations of other governments.

**Fund Balance**

In the fund financial statements, governmental funds report reservations of fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the County is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable fund balance** - includes the portion of net resources that cannot be spent because of its form (i.e., inventory, long-term loans, or prepaids), or because they must remain intact.
- **Restricted fund balance** - includes the portion of net resources on which limitations are imposed by creditors, grantors, contributors, or by laws or regulations of other governments (i.e. externally imposed limitations). Amounts can be spent only for the specific purposes stipulated by external resource providers, or as allowed by law through constitutional provisions or enabling legislation.
- **Committed fund balance** - represents amounts that can only be used for specific purposes imposed by an order, which is the formal action of the County's highest level of decision making authority, the Commissioners' Court. Committed resources cannot be used for any other purpose unless the Commissioners' Court removes or changes the specified use by the same type of action previously used to commit the amounts.
- **Assigned fund balance** - represents amounts the County intends to use for specific purposes but not meeting the criteria to be reported as committed or restricted. The governing body or the County Auditor has the authority to assign fund balance.
- **Unassigned fund balance** - represents the residual classification of fund balance and includes all spendable amounts not contained within the other classifications.

The purpose of the County's fund balance policy is to maintain a prudent level of financial resources to protect against reducing service levels or raising taxes and fees because of temporary revenue shortfalls or unprecedented one-time expenditures.

It is the long-term goal of the County to maintain a minimum fund balance in the General Fund (total of committed, assigned and unassigned fund balance) equal to three months of the annual operating expenditures. The County is currently in compliance with this policy.

**Federal and State Grants**

Grants and shared revenues are generally accounted for within the fund financed.

**FRANKLIN COUNTY, TEXAS  
 NOTES TO THE BASIC FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED DECEMBER 30, 2020**

**A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Property Taxes**

The County bills and collects its own property taxes and those for the Franklin County Water District, Mount Vernon ISD, Saltillo ISD, Sulphur Bluff ISD, County of Winnsboro, and Winnsboro ISD. The County is the only entity controlled by the Commissioners' Court; the County acts as an intermediary in the collection and distribution of property taxes to the other entities.

Property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and personal property located in the County. Assessed value represents the appraised value less applicable exemptions authorized by the Commissioners' Court. The Appraisal Board of Review establishes appraised values at 100% for estimated market value. A tax lien attaches to the property on February 1 each year, to secure the payment of all taxes, penalties, and interest ultimately imposed for the year on the property, whether or not the taxes are imposed in the year the lien attached.

Taxes are due October 1, immediately following the levy date, and are delinquent after the following January 31st. Delinquent property taxes estimated to be collectable within 60 days following the close of the fiscal year have been recognized as revenue at the fund level.

The County's 2019 property tax rate for the Franklin County FY 2020 calendar budget year is \$0.53296.

**Use of Estimates**

Preparing the County's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that effect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**B. COMPLIANCE AND ACCOUNTABILITY**

**Budgets and Budgetary Accounting**

The County prepares its appropriated budget on a basis consistent with generally accepted accounting principles using the organization perspective, that is, the budget follows the formal, usually statutory, patterns of authority and responsibility granted to actually carry out the functions of the government. For example, the County Judge's office has a separate budget from the County Sheriff's office, although various offices may be subsidized from revenues generated by maintenance and operation ad valorem taxes.

The County Auditor and the County Judge prepare an estimated budget based on recommendations and requests submitted by each department head. This estimated budget is presented to the Commissioners, who then begin the process of reallocating specific items that, in their opinion, need to be modified. The proposed budget is filed for public inspection with the County Clerk. Public hearings are then held, if required, and the budget is adjusted, if necessary, and approved in final form by the Commissioners' court. Each fund's appropriated budget is prepared on a detailed line item basis. Revenues are budgeted by source. Revisions to the Budget are made throughout the year.

**Deficit Fund Balance or Fund Net Position**

There were no funds in a deficit fund balance position on December 31, 2020.

**C. DEPOSITS AND INVESTMENTS**

Cash and investments, as of December 31, 2020, consist of and are classified in the accompanying financial statements as follows:

Cash and equivalents	\$ 6,867,477
Restricted cash and equivalents:	
Debt service	73,662
Special revenue purposes	1,925,612
Restricted investments:	
Endowment	271,626
Total cash and investments	<u>\$ 9,138,377</u>

**Custodial Credit Risk**

In the case of deposits, this is the risk that in the event of a bank failure, the County will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require that deposits in financial institutions be fully collateralized by U.S. Government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have fair value of not less than the principal amount of deposits. As of December 31, 2020, the County's deposits were covered by Federal Depository Insurance or by collateral held by a third party custodian.

**FRANKLIN COUNTY, TEXAS  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 30, 2020**

**C. DEPOSITS AND INVESTMENTS (Continued)**

**Concentration Risk**

Concentration risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. It is the County's policy to diversify its portfolio to eliminate the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer, or a specific class of investments.

**Interest-Rate Risk**

Interest rate risk is the risk that exchange rates will adversely affect the fair value of an investment or a deposit. The County is not exposed to foreign currency risk.

**D. RECEIVABLES**

Receivables, as of year end, for the County's individual major funds and non-major funds, including the applicable allowances for uncollectible accounts, are as follows:

	General	Road & Bridge Funds	County-wide Road & Bridge Fund	Non-major Governmental Funds	Total
Receivables:					
Taxes	\$ 2,769,950	\$ 180,600	\$ 1,031,472	\$ 84,599	\$ 4,066,621

**Notes Payable**

The County entered into a note payable with Election Systems & Software in the amount of \$92,986 in November 2017 for the purchase of 10 election machines. This note will be paid in 3 annual installments of each through January 1, 2020. This liability is being liquidated by the General Fund. The obligation had matured as of December 31, 2020.

**Capital Lease**

The County entered into a contractual agreement with Hopkins County EMS whereby the Hopkins County EMS will provide ambulance services to the residents of Franklin County. Hopkins County EMS purchased the ambulance vehicle under the agreement that the County would pay \$41,250 annually for four consecutive years specifically for the cost of the ambulance. At the conclusion of the four year period, the County has the option to purchase the ambulance for \$1 (a bargain purchase). Given the terms of the agreement, Franklin County has recorded a capital lease in the amount of \$165,000 for the year ended December 31, 2019. This capital lease liability is being liquidated by the General Fund. The obligation had matured as of December 31, 2020.

**G. LONG-TERM DEBT (continued)  
Capital Lease (continued)**

The County entered into a capital lease with the County Tele-Coin Co. in the amount of \$66,124 in November 2015 for a video visitation system at the County jail. The payments for this lease are based on commissions earned for the use of the system. 57% of commissions earned are to be paid toward this lease. This lease is active until paid in full. This capital lease is being liquidated by the General Fund. The obligation had matured as of December 31, 2020.

**H. PENSION PLAN**

The County provides retirement, disability, and survivor benefits for all its regular full-time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System ("TCDRS"). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer retirement system. TCDRS issues a comprehensive annual financial report ("CAFR") on a calendar year basis. The CAFR is available on their website at [www.TCDRS.org](http://www.TCDRS.org).

Each employer has a defined benefit plan that functions similarly to a cash balance plan. The assets of the plan are pooled for investment purposes but each employer's plan assets may be used only for the payment of benefits to the members of that employer's plan. In accordance with Texas law, it is intended that the plan be constructed and administered in a manner that the retirement system will be considered qualified under Section 401(a) of the Internal Revenue Code. All full-time and part-time non-temporary employees participate in the plan, regardless of the number of hours they work in a year. Employees in a temporary position are not eligible for membership.

TCDRS does not receive funding from the State of Texas. Each plan is funded by employers, members, and investment earnings. TCDRS is administered by a nine-person board of trustees appointed by the governor and confirmed by the Texas Senate. The board appoints a director, who is responsible for the day-to-day operations, and a chief investment officer, who oversees investment operations.

**Benefits Provided**

TCDRS provides retirement, disability, and survivor benefits. Benefit provisions are adopted by the governing body of the County, within the options available in the state statutes governing TCDRS.

At retirement, retirees elect to receive their monthly lifetime benefit by choosing from one of the seven payment options. Employers may allow partial lump-sum payments. This allows for the retiring member to receive an immediate lump-sum payment not to exceed their account balance, and choose a reduced lifetime benefit from the payment options.

**FRANKLIN COUNTY, TEXAS  
NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 30, 2020**

**H. PENSION PLAN (Continued)**

Plan provisions for the County were as follows:

	Plan Year 2019	Plan Year 2018
Employee deposit rate	7%	7%
Employer contribution rate	12%	12%
Years required for vesting	8 years	8 years
Rule of age for retirement	75 years	75 years
Service years for retirement of any age	30 years	30 years
Partial lump-sum payment option	No	No

**Plan Membership**

At the December 31, 2018 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	61
Inactive employees entitled to but not yet receiving benefits	58
Active employees	81
Total	200

**Contributions**

The contribution rates for employees in TCDRS is 4%, 5%, 6%, or 7% of employee's gross earnings, and the County is required by law, to contribute at actuarially determined rates that are determined annually. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees of the County were required to contribute 7% of their annual earnings during the fiscal year. The contribution rate for the County was 12% for the calendar years 2020 and 2019. The County's contribution to TCDRS for the current fiscal year was \$358,967.

**Net Pension Liability**

The County's Net Pension Liability (NPL) was measured as of December 31, 2019, and the total pension liability (TPL) used to calculate the NPL was determined by an actuarial valuation as of that date.

**Actuarial Assumptions**

The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

TCDRS system-wide economic assumptions:	
Real rate of return	5.25%
Inflation	2.75%
Long-term investment return	8.00%
Employer-specific economic assumptions:	
Growth in membership	0.0%
Payroll growth for funding calculations	3.25%

The County has no automatic cost of living adjustment ("COLA") and one is not considered to be substantively automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB calculation or in the following valuation.

The annual salary increase rates for individual members vary by length of service and by entry-age group. The annual rates consist of a general wage inflation component of 3.25% (made up of 2.75% inflation and 0.5% productivity increase assumptions) and a merit, promotion and longevity component that on average approximates 1.6% per year for a career employee. Salary increases were based on a service-related table.

NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 30, 2020**

**H. PENSION PLAN (Continued)**

Mortality rates for active members, retirees, and beneficiaries were based on the following:

Depositing members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Mortality Table for females, projected with 110% of the MP-2014 Ultimate scale after 2014.
Service retirees, beneficiaries and non-depositing members	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Health Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Disabled retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.

The actuarial cost method was Entry Age Normal, as required by GASB 68. The amortization method was a level percentage of payroll, closed.

The actuarial assumptions that determined the total pension liability as of December 31, 2019, were based on the results of actuarial experience study for the period January 1, 2013 - December 31, 2016, except where required to be different by GASB 68.

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation of expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on April 2020 information for a 10 year time horizon.

The valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a long-term horizon; the most recent analysis was performed in 2017. The following target asset allocation was adopted by the TCDRS board in April 2018. The geometric real rate of return is net of inflation, assumed at 1.80%, per Cliffwater LLC's 2020 capital market assumptions.

Asset Class	Target Allocation	Geometric Real Rate of Return (Expected Minus Inflation)
US Equities	14.50%	5.20%
Private Equity	20.00%	8.20%
Global Equities	2.50%	5.50%
International Equities-Developed	7.00%	5.20%
International Equities-Emerging	7.00%	5.70%
Investment-Grade Bonds	3.00%	-0.20%
Strategic Credit	12.00%	3.14%
Direct Lending	11.00%	7.16%
Distressed Debt	4.00%	6.90%
REIT Equities	3.00%	4.50%
Master Limited Partnerships	2.00%	8.40%
Private Real Estate Partnerships	6.00%	5.50%
Hedge Funds	8.00%	2.30%
<b>Total</b>	<b>100.00%</b>	

**Discount Rate**

The discount rate used to measure the total pension liability was 8.10%. This rate reflected the long-term rate of return funding valuation assumption of 8.00% plus 0.10% adjustment to be gross of administrative expense as required by GASB 68.

The plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active, inactive, and retired members. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return, and the municipal bond rate does not apply.

**Group Term Life Insurance**

The County participates in a cost-sharing multiple-employer defined benefit group-term life insurance plan operated by the TCDRS. This plan is referred to as the Group Term Life Fund ("GTLF"). This optional plan provides group term life insurance coverage to current eligible employees and, if elected by employers, to retired employees. The County has elected to cover eligible retired employees. The coverage provided to retired employees is a postemployment benefit other than pension benefits ("OPEB"). Retired employees are insured for \$5,000.

**Group-term Life Insurance**

Depositing members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Mortality Table for females, projected with 110% of the MP-2014 Ultimate scale after 2014.

The Group Term Life (GTL) program is a separate trust administered by the TCDRS board of trustees. Each participating employer contributes to the plan based on a contractually required rate. An annual actuarial valuation is performed and the contractual rate is determined annually on an actuarial method and is equal to the cost of providing a one-year death benefit equal to \$5,000.

**I. HEALTH CARE COVERAGE**

During the year ended December 31, 2020, employees of the County were covered by a health plan with Blue Cross Blue Shield. The County pays all of the employees' insurance premium which is approximately \$800 per month per employee. Employees, at their option, authorize payroll withholding to pay contributions for dependents. The plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

**J. RISK MANAGEMENT**

The County is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. The County had general liability coverage at a cost that is considered to be economically justifiable. There were no significant reductions in commercial insurance coverage in the past year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.
